About Us

Established in Singapore in 2001, FinIQ's cross-asset trading platform, implemented by its 400 strong workforce, supports FX, bonds, shares, funds, deposits, OTC derivatives & structured products, incorporating the intricacies of retail, wealth, corporate, private banking & interbank trading workflows.

Local integration, settlements, accounting, compliance & documentation requirements are met using FinIQ's built-in LCNC frameworks and ready-to-use APIs.

The FinIQ System is currently used by

-  **15,000** Bankers
-  From **55** different Financial Institutions
-  With **25** ready-to-use Liquidity Provider links
-  Accessible via on-premise installation and also as cloud SaaS

Case Studies

FinIQ's multi-dealer click & trade platform empowered sales teams at a leading Swiss bank with pre-trade checks, client documentation and best execution capability for their FX spot/forwards, DCI, options, accumulators, pivot/TRF as well as equity linked structures such as FCN, ELN, BEN, AQ/DQ and more.

A leading middle-east bank with FinIQ WM implementation streamlined client onboarding, suitability checking, order workflows for mutual funds, bonds, shares, CDs, bills as well as custodian links, SWIFT, corporate actions, P/L and Lombard credit, gaining immense operational efficiency, at the same time achieving cross-product standardisation.

“ FinIQ's FXDConnect was awarded as the best relationship management tech initiative
- By *Financial Times*, UK, Jun 2019 ”

“ FinIQ has taken the lead in the multi-issuer platform (MIP) space after transacting some US\$50 billion in 2020.
Euromoney SRP, Jan 2021 ”
